		Cost per extra visit	£80.00	Included in Plan Fee		£80.00

Where there are several extensions or alterations taking place in one scheme and the work will be undertaken at the same time, reductions may be possible. Similarly, where works listed in categories 3-9 are being carried out at the same time as works in category 1 or 2 a 50% fee reduction will apply to the cheaper work category.

These charges are applicable on the understanding that the building work does not consist of, or include, innovative or high risk construction techniques and/or the duration of the building works from commencement to completion does not exceed 12 months. The charges have been set on the basis that the project's design and construction is undertaken by a person or company that is competent to carry out the relevant work. If this turns out to not be the case additional charges may be incurred.

Electrical work, please note: The following charges have been set on the assumption that a qualified electrician registered under a 'Part P Competent Person's Scheme' will carry out the electrical installation for all notifiable electrical work and will issue certification for such work. An additional charge of £200.00 +VAT will apply if notifiable electrical work is carried out by a person not registered with an approved Part P Competent Persons Scheme. Our Building Control Surveyors or a competent, qualified electrician will be able to advise what constitutes notifiable work.

Regularisation Charges - Domestic Work.

The charge for a Regularisation application, submitted after the works have been commenced, does not attract VAT but will be individually determined charges and based on the extent of works required to determine compliance with the Building Regulations. Note: Only works completed after November 1985 can be Regularised.

New Dwellings or Conversions to Create Dwellings

Number of Dwellings	Full Plans Application Fee		Building Notice Application Fee inc VAT
	Plan Fee inc VAT	Inspection Fee inc VAT	
1	£273.00	£390.00	£795.60
2	£351.00	£546.00	£1,076.40
3	£429.00	£663.00	£1,310.40
4	£507.00	£780.00	£1,544.40
5	£585.00	£897.00	£1,778.40

Individually determined charges for 6 new dwellings and over or where the floor area of a dwelling created exceeds 250 sqm. Please email details of your scheme to Building Control at buildingcontrol@wigan.gov.uk preferably with 'Request for Building Regulation Charge' in the title. We will contact you by the end of the following working day.

Other, Non-domestic work – Extensions, New Build & Alterations

The fees for all non-domestic work applications are now individual determined charges. Please email details of your scheme to Building Control at buildingcontrol@wigan.gov.uk preferably with 'Request for Building Regulation Charge' in the title. We will contact you before the end of the following working day with a competitive fee quote.

Regularisation Charges- Non-Domestic Work

The charge for a Regularisation application, submitted after the works have been commenced, does not attract VAT but will be individually determined charges and based on the extent of works required to determine compliance with the Building Regulations. Note: Only works completed after November 1985 can be Regularised. Please send details of the work that needs to be regularised to buildingcontrol@wigan.gov.uk for a charges quote.

Important Notes

These charges have been set by the authority on the basis that **the building work does not consist of, or include, innovative or high risk construction techniques** (details available from the authority) and/or **the duration of the building work from commencement to completion does not exceed 12 months**.

The charges have also been set on the basis that the design and building work is undertaken by a person or company that is competent to carry out the relevant design and building work. If they are not, the work may incur supplementary charges.

Individually Determined Charges:

If the work you are carrying out is not listed as a standard charge, the charge will be individually determined. This method of determining the charge mainly relates to larger schemes and includes the following types of building work.

- Applications deposited by agents registered partners of Wigan Building Control under the LABC partnership scheme.
- Applications subject to a reversion charge (work reverting from an approved inspector to the local authority)
- Building work that is in relation to more than one building
- Building work consisting of alterations to a domestic property (other than extensions) where the estimated cost exceeds £75,000
- Building work consisting of a domestic extension where the floor area exceeds the maximum area shown above or in multiple categories.
- Building work consisting of a non-exempt domestic garage or carport with a floor area over 100m²
- The building work does not consist of, or include, innovative or high-risk construction techniques
